

Real Names Not To Be Used

If you use a Porn Star name, what is it?

Windsor -AP- A funny thing happened a few months back, whilst I was on summer vacation. I goggled 'Windsor Tomcats' and the site came up. Shit! We are on the world wide web for Christ's sake, not really wanting to use God' son's name in vane, but there we were. The weird part, was Bob Skoretz's name came up in the first icon on the Windsor Tomcats and the story dealt with Bob being the Chairman of the Tomcat Golf Committee promoting 'women who want bigger breasts but can't afford them'. (A totally honourable charity) However, if Bob applies for a job at IBM and the goggle his name and some yuts at the interview, had gone in to the world wide web to do some research on Bob, well you can see where this is going. "Bob, we like what you bring to the table but tell us about the Charity about women wanting larger breasts and you guys raised 45 million in two hours, that is unheard of Bob!"

So, if you notice the last few weeks of blogs by Harry Ballsonue, Harry does not use anyone's real name anymore, just the Nick Name. Harry plans to give everyone a fake name, close to the real name, but not quite. For example, Andy Brewin would be Andy Brewing and Mike JAworinsky would be Mike Jablonsky or David Hann would be David Ham, stuff like that Blogger Blogerstien, Heywood Jewblowme and Yuri Handsonmycock will follow suit.

So if you are reading about a sweet pass made by Lovie Edinburgh to David Crowfoot who snuck it by the five hole of Mike Mendelbaum, you will know what the hell is going on.

Mendlebaum-Mandlebaum-Mandlebaum.

You may walk many miles, travel many seas, climb mountain after mountain, eat pussy after pussy after pussy, after pussy, but you will never find a better bunch of guys than the Windsor Tomcats.

Does Anyone Read The St. Felix ?

Are there too many words and not enough pictures?

Lonely Writers Garrett -AP- So in a previous issue, not going to say which one, there was an article about the Tomcats buying a new cooler. Held 87 cans of cold beer. I would have thought, this would have got the masses attention but it did not. Youngblood was having Hernia Surgery, this Tomcat did not know that at all, it was right there for him to read!!! There was a beautiful poem written by the HPP (Hockey Puck Poem) (a previous issue, not going to say which one) and I asked, did you like the poem about hockey starting by the HPP? "Who...what? No, I didn't see it."

Yeesssh!
'Communication is the international solvent', I heard that one somewhere and it is true, I know most of the stories in the St. Felix are bullshit and made up, but they are suppose to be. They are suppose to be funny and keep you interested in floor hockey. Once in a while there is quote that is actual said, like George Metulynsky's famous quote, "Veggies on a pizza, what?? if I want veggies, I'll order a fucking salad". We know that this think called the world wide web is talking over print media. Who buys newspapers any more? So this November issue of the St. Felix, the one hundred and sixty ninth is a one pager, yes a one pager. Two articles and 1picture (Will have nothing to do with the stories).

Tell us if you read it. Will you know why fake names or only nick names are used in the Blogs?
Quiz; 1) Which recent issue houses a picture of a very young looking Bulldog Meloche?
2) Which issue has Spinner in his underwear?
3) Which issue has the 'Rags to Riches' Story?

Do you recall anyone of those?
The St. Felix will not stop producing issues. We are only 31 away from reaching 200.
Maybe one page St. Felix's are the answer. Maybe just pictures with a caption?
We here at the St. Felix are wondering and we are trying to figure out what to do next? Stay tune.

Tomcat Tape: 3 Rolls

With a slight demand on hockey tape, the Windsor Tomcats went out and purchased three rolls at a cost of \$9.00. If you need to tape up your butt end, the tape will be in Stevo's bag.....help yourself.
