What Ever Happed To Youngblood

One Day he is the minister of pizza and then next, you don't hear from him. There have been sever speculations: 1) that he was very upset with the ribbing he took for ordering a vegetarian pizza to a Tomcat event. 2) He was going to start concentrating on his garlic farm (he grows and sells garlic) 3) His political views as a die heart NDP were falling on deaf ears and he was getting too stressed out about it and 4) Lovie creeped him out by asking him to stick around on stage after everyone had left. (just the two of them)
